## Guardian Application

Welcome to our Guardian Program! These dogs/puppies will be a part of our breeding program once they have passed their DNA & Orthopedic health testing! We love our dogs very much and want them to have a normal cage free life and not to have a kennel setting. We want our dogs raised with a family and social environment with lots of love. We strive for health and temperament of the breeds. The following is some questions to help place our dogs/puppies properly with the right settings and families! Please answer to the best of your ability and honesty!

Our Guardian Contract is a legal binding contract. There are no buy-out options for any of our guardian dogs/puppies. If the situation arises to have to forfeit the contract, the dogs/puppies are to be returned to the breeder ONLY. If you are wanting a pet with no contract, please inquire about our pet options!
