

**Desired Breed & Size:**

Breed(s) you are open to:      Goldendoodle      Bernedoodle      Poodle

Size(s) you are open to:      Micro Mini (approx 8-15#)      Petite (approx 15-25#)      Mini (approx 25-35#)

                                 Medium (approx 35-55#)      Standard (approx 55+)

**Financial Obligations:**

Grooming: We use Jewel Miller Grooming. This is needed every 4-6 Weeks. Are you able to afford grooming needs:      YES      NO

Supplements: Female Guardians must be on NuVet Supplements Daily. The cost is approx \$27/Month

Male Guardians must be on NuVet Supplements & Oxy Stud Daily. The cost for both is approx \$52/ Month

Food: We use TLC food. A great quality food. This brand is a must unless allergy issues arise. This is approx \$70/ 30 Lbs.

Are you able to afford Food & Supplements required?      YES      NO

Vet Care: Our pets get the best vet care. We use Vale Park Animal Hospital for all our guardians. ALL Breeding related bills will be absorbed by the breeder. ALL other care/incidentals/shots/meds are the Guardian's responsibility.

Are you able to afford Vet Care required?      YES      NO

Monthly Meds: NO oral flea/tick meds are allowed. We use Frontline Plus & Heartgard Monthly for our guardians. Safety is first and foremost with all of our breeding dogs.

Are you able to afford the required Medications?      YES      NO

Training & Manners is a MUST!! If any behavior issues arise or go uncorrected, Guardians are responsible for training. We use Happy Pup Manor located in Barrington, IL.

Are you able to afford Training?      YES      NO

**Contract Obligations:**

Are you able/willing to provide transportation for guardian dog/puppy to and from the breeder's home or Vet:      YES      NO

Male Guardians: Need transportation for breeding(s) approx 2-3x per female being bred to. Males are not kept overnight at breeder's home. Most Breedings are done during daytime business hours.

Female Guardians: Need transportation to breeders home once heat/Progesterone testing begins. Breeder will allow females to stay in the home until breeding is done as long as space is available.
